

Holland Laboratory

The ALS facility in Holland is a NELAP accredited laboratory, offering a comprehensive range of analytical services while also providing clients with access to a global network of capabilities. Our services are complemented by a strong commitment to our core values of quality, integrity and service. In addition to our analytical services, the laboratory offers sample collection and courier services, with convenient service centers in Chicago, Cleveland, Detroit, Traverse City, and Western Colorado.

ALS' state-of-the-art Laboratory Information Management System (e-LIMS) provides our clients with detailed analytical reports in a wide variety of flexible and Electronic Data Deliverable (EDD) formats. We also offer Webtrieve™, a secure, web-based, gateway for clients to obtain real-time information about their analytical projects. Webtrieve™ allows access to analytical results, remote downloading of data, secure emailing of reports, and tools to compare analytical data to applicable state guidelines.

We are a performance-based company. Our goal is simply to provide the highest quality analytical results and service in the industry. We recognize that you have a choice, and we are committed to your success. For further information about our services, or to discuss how we can assist you with an upcoming project, please call us to arrange a consultation or laboratory tour.
