

# Agriculture Water Analysis

Samples must be received by the laboratory within 48 hours of sampling. If this does not occur, there will be a requirement to re-sample. If you are not dropping off samples at the laboratory, please complete your submission form and include it with the samples.

 See reverse for submission notes

Package	Analysis Included		Price incl. Taxes*
WA1	Bacterial analysis: Total coliform and E. coli by Quanti tray	125 mL sterile bottle	\$60
WA2	Basic Irrigation Suitability: Alkalinity, pH, Conductivity. Calcium, Magnesium, Sodium, Potassium, Chloride, Sulphate, Calculated Total Dissolved Solids and Sodium Absorption ratio	500 mL plastic bottle	\$165
WA3	Basic Livestock Suitability: pH, Conductivity. Calcium, Magnesium, Sodium, Potassium, Chloride, Sulphate, Iron, Nitrate/Nitrite-N, Calculated Total Dissolved Solids and Hardness	500 mL plastic bottle	\$160
WA4	Spray Water Suitability: Alkalinity, pH, Conductivity. Calcium, Magnesium, Sodium, Potassium, Sulphate, Calculated Total Dissolved Solids, Hardness and Sodium Absorption ratio	500 mL plastic bottle	\$145
WA5	Greenhouse Water Suitability: Alkalinity, pH, Conductivity. Calcium, Magnesium, Sodium, Potassium, Boron, Copper, Iron, Magnesium, Zinc, Chloride, Sulphate, Nitrates, Calculated Total Dissolved Solids and Sodium Absorption ratio	500 mL plastic bottle	\$210
WA6	Manure Storage Facility Monitoring Well Year 1: pH, Conductivity, Chloride, Na, Total Nitrogen, Total Kjeldahl Nitrogen, Ammonia-N, Nitrate/Nitrite-N	500 mL plastic bottle	\$210
WA7	Manure Storage Facility Monitoring Well Subsequent Years: Conductivity, Chloride, Ammonia-N, Nitrate/Nitrite-N	500 mL plastic bottle	\$90
WA8	Livestock Source Water Sampling Test: Total coliform (TC) & Fecal coliform by membrane filtration. Conductivity, Chloride, Ammonia-N, TKN, Nitrate/Nitrite-N	Two 125mL sterile bottles & One 500 mL plastic bottle	\$160

\* Prices are effective for the 2020 calendar year. \*\*Pricing includes \$3.00 sample handling / disposal fee and GST

**Please note:**

A laboratory submission form must accompany all samples. If you do not have one, contact us and we will email or fax you a form. Our phone number is +1 204 255 9720 or toll free at +1 800 607 7555.

Bottles for water testing may be obtained from your local Municipal, Water Stewardship Office, or Manitoba Conservation Office, Agriculture Office or Water Services Board. They can also be picked up from the laboratory from 8:00 a.m. to 4:30 p.m., Monday through Friday.

Bacterial samples must be taken in the 125 mL sterile bottle provided by the laboratory. Other samples have no specific bottle requirement, however we do require 500 mLs of sample.

Please follow the sampling instructions printed on the back side of the sample submission form.

Payment must be sent with sample, cheques made payable to ALS Canada Ltd.

Samples must be received by the laboratory within 30 hours of sampling. Samples can be submitted in-person, Monday to Friday between 8:00 a.m. and 4:30 p.m., or shipped by bus, Purolator, or Express Post to: ALS Environmental, Unit 12 - 1329 Niakwa Road East, Winnipeg, MB R2J 3T4. Sending samples by mail is not recommended as samples will be received after the 30 hour maximum holding time. There may be a requirement to resample if the maximum holding time is exceeded.

If you do not have an ALS account, please include a check payable to: ALS Canada Ltd.

If you have any questions regarding sampling payment options, please contact the laboratory at +1 204 255 9720 or toll free at +1 800 607 7555.
