

# Halal Food Testing Services

## Introduction

Halāl (Arabic: حلال ḥalāl, "permissible"), refers to what is permissible or lawful in traditional Islamic law and it is frequently applied to permissible food and drinks. It is also associated with being wholesome, just and all things that are pure and good (Thoyyib). Today, Halal covers food and a wide range of products from pre-cooked meals to toiletries, personal care items, pharmaceuticals and health supplements.

**ALS Malaysia** offers Halal and Halalan Thoyyiban Assurance Testing such as:

- Porcine DNA Detection
- Alcohol (Ethanol) Detection
- GMOs and Allergens
- Hygiene Monitoring
- Microbiology & Heavy Metals test
- Food Adulterants

ALS Malaysia is part of the ALS global laboratory group and is an ISO 17025 accredited laboratory equipped with state-of-the-art facilities.

Please contact us to discuss your analysis requirement and we will assist you with the proposal.

## Makmal Panel Halal JAKIM & Methodology

13th Oct 2017 : JAKIM and ALS Technichem (M) Sdn Bhd signed a Memorandum of Understanding (MoU) for forging bilateral ties in the halal food testing sector. JAKIM, Malaysia's national Muslim authority body, **appointed ALS Malaysia** to their panel as a certified laboratory for Halal assurance testing.

Test Method: Real-Time PCR  
Types of samples: Raw or processed food  
Our standard laboratory turnaround time is 5-7 working days from the receipt of samples.
